

York International appoints Godfrey to London role

1 Sep 2013

York International has appointed [Marc Godfrey](#) to help support the firm's energy, engineering and construction product lines within its home foreign operation based in London.

As Associate Technical Director, he will be responsible for assisting in the development and delivery of construction, engineering and energy claims services for London and Overseas Reinsurers, complementing York's current strong lines.

Marc is a highly experienced international adjuster. He joins York International from Crawford & Co, where he was an International Director, based in Mexico City. Previously, he was based in Brasil. Marc trained as a quantity surveyor working both in the UK and overseas, before entering loss adjusting in 1998.

As well as adjusting expertise the appointment brings experience in areas such as Latin America and the Middle East, directly supporting our focus on building a strong international presence.

Marc is also able to offer unique regional knowledge along with language (Spanish and Portuguese) and cultural perspectives that come from his on the ground experience in key Latin American territories.
